

The DUX 1001

THE DEFINITION OF THE DUX SLEEP SYSTEM, PURE AND SIMPLE

The DUX 1001 dynamic two-layer base is the perfect introduction to the legendary DUX comfort and support, and to a better night's sleep. Predrilled holes with grommets make headboard attachment easy. The DUX 1001 comes with our Xupport Top Pad, as well as a choice of bed legs in various styles and finishes. The DUX 1001 is handcrafted from the finest materials, and is presented in its own storage bag.

Experience the DUX Difference

SWEDISH STEEL SPRINGS

At the heart of The DUX 1001 are Swedish steel springs - nearly 2 times as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

EXTRA SUPPORT

The DUX 1001 comes with our Xupport Top Pad. This 6 cm replaceable cotton covered latex top pad adds extra softness and cushioning.

SPRING MATTRESS

Spring mattress with latex, cotton filling and two layers of springs on an interior hardwood frame. Available in medium or firm spring densities.
