

The DUX 6006

A BED AS UNIQUE AS YOU ARE

The DUX 6006 offers our individualized Pascal comfort zones, allowing you to customize each side of the bed. You can quickly change the amount of support under your shoulders, hips and legs. It's your side, your way, no matter where you want extra support. The DUX 6006 also comes with all the other comforts you've come to expect from a DUX bed—deep springs that contour to your body, as well as our luxurious Xupport Top Pad. Like all DUX beds, the DUX 6006 is handcrafted from the finest materials. We also offer a choice of bed legs in various styles and finishes.

Experience the DUX Difference

SWEDISH STEEL SPRINGS

At the heart of The DUX 6006 are Swedish steel springs - nearly twice as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

PERSONAL COMFORT ZONES

Everyone's body is unique. That's why The DUX 6006 offers individualized comfort zones, allowing two people to select the perfect setting for their shoulders, lower back and legs.

EXTRA SUPPORT

The DUX 6006 comes with our Xupport Top Pad. This 2.5 inch replaceable cotton covered latex top pad adds extra softness and cushioning.
